

Poonam Shivang Dave

ISTQB Certified QA Engineer | Manual, Automation & AI-Assisted Testing

Vadodara, India | 7801834850 | poonamdwivedi3009@gmail.com

PROFILE

Detail-oriented QA Engineer with nearly 6+ years of experience in manual and basic automation testing of software applications, mobile apps, websites. Strong understanding of QA methodologies, SDLC, and STLC, with hands-on experience in API and database testing. Proactively leveraging AI-powered tools to enhance test case creation, test data generation, and defect analysis, ensuring faster and higher-quality test coverage.

CORE COMPETENCIES

- Manual Testing: Smoke, Sanity, Functional, Regression, UAT
- Automation Basics: Selenium WebDriver, TestNG
- API Testing: Postman
- Database Testing: SQL Validation
- Defect Tracking & Test Management: JIRA
- Test Case Design, Review & Documentation
- SDLC & STLC
- Agile / Scrum Methodology
- Localization & Internationalization Testing
- Requirement Analysis & Test Planning
- Cross-team Communication & Collaboration

AI-Assisted Testing Skills

- AI-based Test Case Generation from requirements and user stories
- Using AI tools for test scenario brainstorming and edge-case identification
- AI-assisted test data creation and validation
- Leveraging AI for defect analysis, root-cause suggestions, and test optimization
- AI support for test documentation, summaries, and reporting

PROFESSIONAL EXPERIENCE

Software Test Engineer – Rishabh Software (**2023 – Present**)

- Reviewed business requirements and technical documents to ensure test readiness
- Designed, executed, and maintained comprehensive test cases and test scenarios
- Identified, logged, tracked, and validated defects in JIRA

- Assisted in API testing using Postman and SQL-based data validation
- Collaborated closely with development, product, and business teams to ensure quality delivery
- Utilized AI tools to accelerate test case creation, improve coverage, and identify missing scenarios
- Used AI assistance for test execution summaries and defect description improvements

QA Engineer – Proseon Technologies (**2023 – 2023**)

- Conducted system and regression testing across multiple application modules
- Logged and tracked defects in JIRA with clear reproduction steps and evidence
- Optimized and reviewed test cases to improve overall test coverage

Manual QA Engineer – PAM Infotech (**2018 – 2022**)

- Created and executed detailed manual test cases based on functional requirements
- Performed functional, regression, and UAT testing for web applications
- Identified defects and ensured adherence to quality standards
- Planned, coordinated, and reported testing activities across releases
- Prepared QA documentation including test cases, defect reports, and test summary reports

PROJECTS

Weltec Management System – Manual Testing

- Web-based system for managing student inquiries, enrollments, courses, and fees
- Prepared and executed functional and regression test cases
- Logged and tracked defects and coordinated with developers for fixes
- Maintained QA documentation including test cases and defect logs

EDUCATION & CERTIFICATIONS

- ISTQB Certified Tester – Foundation Level
- Software Testing Certification (Manual & Automation) – **Weltec Institute**
- B.Tech in Electronics & Communication Engineering (**2012 – 2016**)

TOOLS & TECHNOLOGIES

- Selenium WebDriver, TestNG (Basic)
- Postman
- JIRA
- SQL

- AI Tools for Testing & Documentation
